Re: 2021 Backflow Device Inspections

The bulk inspection process for 2021:

- **Irrigation systems will need to be turned on by May 31st** for the inspection to take place. If your system is not turned on when the inspector shows up they will charge you an additional fee of \$45 for a return trip. Note: You do not have to wait for the inspection to take place before you start using your irrigation system.
- You do not have to be home for the inspection to take place unless your backflow device is inside.
- If the inspector identifies that your device is in need of repair there will be an additional charge to you from the **BackFlow Man**. They will notify you prior to any repairs and give you an estimated cost of the repair.
- **Inspections will take place between June 6th and June 10th between the hours of 8 a.m. and 8 p.m.** The inspector will deliver the completed inspection form to DPW. You should not expect to be contacted by anyone unless there is a needed repair.
- The cost for the inspection is **\$25 payable directly to the Backflow Man. Please mail your payment to PO Box 83 Buckley, MI 49620.**

Should you have any questions or concerns about this matter, please don't hesitate to contact me.

Sincerely,

Tim G. Webb
President/Property Manager
